Full Time Growth Hacker/ Marketer

Job Description

gini is looking for a self-starter and enthusiastic growth marketer who can make an immediate impact on gini's offline and online acquisition strategy. You are extremely adept at understanding the marketing funnel and how to optimize at every stage of it. You embrace being held to a pipeline number and a process-loving, data-driven marketer with strong analytical skills. You're a highly creative individual with experience in identifying target audiences and devising campaigns that engage, inform, and motivate based on unique personas. You have strong experience in optimizing landing pages and user funnels. You are skilled at marketing automation, personalization, predictive/AI-based technologies and you love to orchestrate their seamless interaction. A marketing operator with clear communication style who knows how to be part of a motivated team and foster positive culture.

This position will require you to:

- Be a self-starter who can make an immediate impact on gini's acquisition strategy
- Understand the marketing funnel and how to optimize at each stage
- Discover and experiment with new growth channels and audiences. Build processes optimize audience segments to structure & scale our most successful channels.
- Identify and set key performance indicators (KPIs) for all programs, analyze channel and campaign performance,

- Execute and optimize measurable, results-driven, on-brand marketing strategies that support user across the funnel to improve acquisition and activation metrics
- Analyze data to improve results of campaigns and work with manager on budget allocation.
- Manage website conversion optimization, personalization, SEO, and more
- Manage operational elements of campaigns and digital programs
- Have an Education Level (pursuing/obtained) a Bachelor's degree and above preferred
 - Have a Work Experience between 1-6 years experience in digital marketing We are looking for hackers who have:
 - 1-6 years experience in digital marketing and a focus on measurable results
 - Obsession with data and strong analytical skills and ability to process and make decisions based on data and set quantitative goals
 - Strong examples of how they've contributed to growth with corresponding verifiable metrics
 - Solid project management skills: ability to lead and collaborate with cross-functional partners, prioritize high impact activities, and keep complex projects moving forward.
 - Great communication skills
 - Self-motivated and driven personality Who are we? gini is an award winning fintech company (winning 2 of 4 awards at the Citi Fintech Challenge, 2017 Winter Cocoon Champion) with a goal of making anyone great at managing their personal finances. gini is a groundbreaking app that helps users manage their personal finances and discover how to optimize it. Our app makes banking more personal than ever, providing unique data-driven solutions, such as transaction-based market analytics. Our company is a pioneer in personalized digital banking solutions in Hong Kong with full support from Cyberport and integrates with all the major local and international banks.
